4 - *Phascolarctomys* to *U. armatus*

Uthmaniyah - 27 September 2000
Observations: The following observations were made during the field study. The first observation was made on the 27th of September. The second observation was made on the 28th of September. The third observation was made on the 29th of September. The fourth observation was made on the 30th of September. The fifth observation was made on the 1st of October. The sixth observation was made on the 2nd of October. The seventh observation was made on the 3rd of October. The eighth observation was made on the 4th of October. The ninth observation was made on the 5th of October. The tenth observation was made on the 6th of October. The eleventh observation was made on the 7th of October. The twelfth observation was made on the 8th of October. The thirteenth observation was made on the 9th of October. The fourteenth observation was made on the 10th of October. The fifteenth observation was made on the 11th of October. The sixteenth observation was made on the 12th of October. The seventeenth observation was made on the 13th of October. The eighteenth observation was made on the 14th of October. The nineteenth observation was made on the 15th of October. The twentieth observation was made on the 16th of October. The twenty-first observation was made on the 17th of October. The twenty-second observation was made on the 18th of October. The twenty-third observation was made on the 19th of October. The twenty-fourth observation was made on the 20th of October. The twenty-fifth observation was made on the 21st of October. The twenty-sixth observation was made on the 22nd of October. The twenty-seventh observation was made on the 23rd of October. The twenty-eighth observation was made on the 24th of October. The twenty-ninth observation was made on the 25th of October. The thirtieth observation was made on the 26th of October. The thirty-first observation was made on the 27th of October. The thirty-second observation was made on the 28th of October. The thirty-third observation was made on the 29th of October. The thirty-fourth observation was made on the 30th of October. The thirty-fifth observation was made on the 1st of November. The thirty-sixth observation was made on the 2nd of November. The thirty-seventh observation was made on the 3rd of November. The thirty-eighth observation was made on the 4th of November. The thirty-ninth observation was made on the 5th of November. The fortieth observation was made on the 6th of November. The forty-first observation was made on the 7th of November. The forty-second observation was made on the 8th of November. The forty-third observation was made on the 9th of November. The forty-fourth observation was made on the 10th of November. The forty-fifth observation was made on the 11th of November. The forty-sixth observation was made on the 12th of November. The forty-seventh observation was made on the 13th of November. The forty-eighth observation was made on the 14th of November. The forty-ninth observation was made on the 15th of November. The fiftieth observation was made on the 16th of November. The fifty-first observation was made on the 17th of November. The fifty-second observation was made on the 18th of November. The fifty-third observation was made on the 19th of November. The fifty-fourth observation was made on the 20th of November. The fifty-fifth observation was made on the 21st of November. The fifty-sixth observation was made on the 22nd of November. The fifty-seventh observation was made on the 23rd of November. The fifty-eighth observation was made on the 24th of November. The fifty-ninth observation was made on the 25th of November. The sixtieth observation was made on the 26th of November. The sixty-first observation was made on the 27th of November. The sixty-second observation was made on the 28th of November. The sixty-third observation was made on the 29th of November. The sixty-fourth observation was made on the 30th of November. The sixty-fifth observation was made on the 1st of December. The sixty-sixth observation was made on the 2nd of December. The sixty-seventh observation was made on the 3rd of December. The sixty-eighth observation was made on the 4th of December. The sixty-ninth observation was made on the 5th of December. The seventieth observation was made on the 6th of December. The seventy-first observation was made on the 7th of December. The seventy-second observation was made on the 8th of December. The seventy-third observation was made on the 9th of December. The seventy-fourth observation was made on the 10th of December. The seventy-fifth observation was made on the 11th of December. The seventy-sixth observation was made on the 12th of December. The seventy-seventh observation was made on the 13th of December. The seventy-eighth observation was made on the 14th of December. The seventy-ninth observation was made on the 15th of December. The eightieth observation was made on the 16th of December. The eighty-first observation was made on the 17th of December. The eighty-second observation was made on the 18th of December. The eighty-third observation was made on the 19th of December. The eighty-fourth observation was made on the 20th of December. The eighty-fifth observation was made on the 21st of December. The eighty-sixth observation was made on the 22nd of December. The eighty-seventh observation was made on the 23rd of December. The eighty-eighth observation was made on the 24th of December. The eighty-ninth observation was made on the 25th of December. The ninetieth observation was made on the 26th of December. The ninety-first observation was made on the 27th of December. The ninety-second observation was made on the 28th of December. The ninety-third observation was made on the 29th of December. The ninety-fourth observation was made on the 30th of December. The ninety-fifth observation was made on the 1st of January. The ninety-sixth observation was made on the 2nd of January. The ninety-seventh observation was made on the 3rd of January. The ninety-eighth observation was made on the 4th of January. The ninety-ninth observation was made on the 5th of January. The hundredth observation was made on the 6th of January.
